

Designed for Disaster

Mining Waste Reservoir

Earthen dam

Pebble Earthen Dam 740'

Space Needle 527'

Northern Dynasty has quietly filed plans for building the largest dam in the world at the headwaters of Alaska's largest salmon spawning streams in Bristol Bay.

It will hold back a toxic lake 740 feet high in a region of frequent earthquakes – towering 200 ft higher than the Seattle Space Needle.

Northern Dynasty says “wait-and-see”. We say “we’ve-seen-enough”.

It's time to stop Pebble Mine before it washes over our economy like a toxic tidal wave.

OPPOSE THE PEBBLE MINE
