

Ground Zero

Can you imagine 58,000 one-ton explosions every year in your backyard?

Northern Dynasty says we shouldn't rush to judgment on the Pebble Mine – that we should “wait and see”.

Wait and see what? A giant hole in the center of this paradise?

Pebble Mine would only be the beginning. It would lead to mines throughout the Bristol Bay drainage.

We can't afford to “wait and see”. We must oppose Pebble Mine just as aggressively as Northern Dynasty is promoting it. Ask all local and statewide candidates where they stand on Pebble before you vote.
