

NEVER ENDING GOLD MINE

Northern Dynasty wants a few of us to turn our backs on the water and become miners.

Miners dig and dig until the gold is gone. And unlike fishermen, they always leave misery in their wake.

Commercial fishermen need to rally against the proposed Pebble Mine because mining companies break their promises and because open pit mines pollute water and poison fish.

There has never been a mine in a location where so much is at risk. Other states have mine pollution that will take more than a century to clean up. That's sad. But Bristol Bay salmon runs can't be cleaned up if the spawning grounds are poisoned.

The Pebble Mine damage will be permanent.

OPPOSE THE PEBBLE MINE
